

**AMENDMENTS TO THE SPECIFICATION**

Please amend ¶ [0088], as shown below:

[0088] The software (also known as programs, software tools or code) may include machine instructions for a programmable processor, and can be implemented in a high-level procedural and/or object-oriented programming language, and/or in assembly/machine language. As used herein, the term "machine-readable medium" refers to any computer program product, apparatus and/or device (e.g., magnetic discs, optical disks, memory, Programmable Logic Devices (PLDs)) used to provide machine instructions and/or data to a programmable processor, ~~including a machine-readable medium that receives machine instructions as a machine-readable signal. The term "machine readable signal" refers to any signal used to provide machine instructions and/or data to a programmable processor.~~
